Do you need a computer at home?

Earn a computer by volunteering!

Plug into Portland is a Free Geek program that provides computers and computer skills training to kids who volunteer for 24 hours.

Apply at freegeek.org/plugintoportland.

Plug into Portland

Who is eligible to get a computer?

This program is available to all kids in grades K-12 in the Portland metro area.

Your volunteer service must be completed within the last year at a nonprofit, library, or school.

How do you apply?

1. **Complete 24 hours of volunteering with a nonprofit, library, or school.**

2. **Apply online at freegeek.org/plugintoportland.**

3. **Schedule a time to attend Getting Started with your Free Geek Computer.**

   In this workshop, you pick out your computer and learn about its open source operating system, Linux Mint. You will also learn how to download new software and how to access free technical support. *Under 16? Please bring a parent/guardian with you.*

4. **Take your computer home!**
